

SPENCER MARTZ

Profile

Spencer Martz is a third year Secondary Education student, specializing in mathematics and with an additional minor in mathematics. In his professional life, he has worked with K-12 students on all ranges of topics, and especially the sciences, as well as maintaining a career in food service. They are highly skilled in and around their content area as well as other topics, including music, athletics, global history, and others. They are eager to leverage their skills to inspire and empower students.
